Prof. Dr. Manolis Pasparakis, Institute for Genetics, CECAD, University of Cologne
- 12:30 **Questions & Discussions**
- 13:00 **End**

The Department 7 for Research Management of the University of Cologne organises a workshop on the ERC Consolidator Grants in Horizon 2020. Information on the general principles of the ERC, the current call and useful tips from a Principal Investigator and an ERC Panel Chair will be provided.

The workshop addresses researchers with **7-12 years research experience** since completion of their PhD and with a scientific track record showing great promise. The workshop addresses those researchers in particular who aim to submit their proposals in this year's ERC Consolidator Grants call.
