

EXHIBITION

Bridging Perspectives: A Dialogue on Diversity and Mental Health in Science

TOGETHER

16.11. - 1.12.2023

CECAD Research Center

In a scientific professional environment, one is exposed to different challenges due to workload, multiculturalism, multilingualism, competition, communicational problems and further stressors, which in the worst case can lead to a mental health crisis. With this exhibition we want to build bridges between perspectives and promote a deeper understanding of the dimensions of diversity and mental health and the intersection between the two.

Visit our **POSTER EXHIBITION** in the CECAD Foyer where we will inform you about

ANTIDISCRIMINATION
