

Cologne Seminars on Ageing Series 2015

Location: MPI for Biology of Ageing - Lecture Hall, Ground floor,
Joseph-Stelzmann-Str. 9b

Time: 17:00*

Date	Guest	Host
13 January (12:00)	Thomas Gasser (GER) „Genetic basis of PD“	Adam Antebi
26 January (12:00)	Fredrik Bäckhed (SWE) "Role of gut microbiota in the pathogenesis of type 2 diabetes"	Nils Göran Larsson
11 March	Hartmut Geiger (GER) "On stem cell aging and rejuvenation: tales of Cdc42, Wnts and stem cell divisions"	Carien Niessen
25 March	Norbert Hübner (GER) "The role of posttranscriptional regulation in cardiac dysfunction"	Christoph Dieterich
17 April (3pm)	Eric Gilson (FR) "The extracellular life of the telomeric protein TRF2 in cancer and aging"	Björn Schumacher
22 April	Salvador Aznar-Benitah (ESP) "Spatiotemporal regulation of adult stem cell function by circadian rhythms: Impact on homeostasis and ageing"	Sara Wickström
20 May	Coleen Murphy (USA) "Fatal Attraction: The links between mating, reproductive behaviour, and longevity"	Martin Denzel

*Unless otherwise stated.

26 May	Frank Schröder (USA) "Integrative Analysis of the Aging Process"	Adam Antebi
18 June	Sascha Martens (AUT) "Molecular Mechanisms of Selective Autophagy"	Martin Graef
24 June	Damian Dowling (AUS) "Mitochondria, maternal inheritance, and the evolution of life histories"	James Stewart
July	Summer break	
12 August	Satchin Panda (USA) „Eating pattern in health and diseases“	Leo Kurian
17 August	Jan Hoeijmakers (NL) „The impact of genome stability on the overall process of aging and the effect of nutritional interventions“	Linda Partridge
26 August	Ehud Cohen (IL) „Lipid assemblies and post translational modifications as key regulators of aging and proteostasis in the nematode C. elegans“	David Vilchez
9 September	Maurizio Sanguinetti (IT) „Relationships between microbiota and gut diseases“	Oliver Cornely
23 September	Thomas Boehm (GER) "Phylogeny and ontogeny of lymphopoietic microenvironments"	Dario Valenzano
7 October	Harm Kampinga (NL) "Heat shock proteins: the brains of protein quality control?"	David Vilchez
15 October	Floris Fojier (NL) <i>"CINister models to better understand the consequences of aneuploidy in cancer and ageing."</i>	Carien Niessen
21 October	Eline Slagboom (NL) "Linking Omics and Environment to understand the hallmarks of healthy ageing and longevity in humans"	O.Cornely/B.Schumacher

26 October	Tiago Fleming Outeiro (GER) „From the baker to the bedside: molecular links between aging and neurodegeneration“	Michael Lammers
4 November	Oliver Hobert (USA) "How neurons acquire and maintain their identity: Lessons learned in C.elegans"	Thorsten Hoppe
25 November	Peter Rehling (GER) "Mitochondrial biogenesis: Building respiratory chain complexes"	MPI Age post-doc committee
9 December	Elke Deuerling (GER) „Chaperones acting at central hubs of protein biogenesis“	Thorsten Hoppe
